Body Politics in Development is based on twenty years of experience working (somewhat accidentally) in the field of development, very engaged in the work of women's movements around body politics, - the strategies and practices around sexual and reproductive rights and health, gender-based violence, maternal health, sexuality and technologies around the body. The book looks at how the body is so central and yet so invisible in development theory and practice and contrasts it with the ...

Gender and politics scholars argue that the roots of this enduring male domination in both politics and the political science academy are complex and profound. Challenging this deep-seated domination is more than simply a problem of adding women or increasing the "sheer numbers" in public office (Beckwith and Cowell-Meyers 2003).
