Kindly say, the paranoia ideas in psychoanalysis is universally compatible with any devices to read

[Paranoia Ideas In Psychoanalysis](#)

The Oedipus complex (also spelled Œdipus complex) is a concept of psychoanalytic theory. Sigmund Freud introduced the concept in his Interpretation of Dreams (1899) and coined the expression in his A Special Type of Choice of Object made by Men (1910). The positive Oedipus complex refers to a child's unconscious sexual desire for the opposite-sex parent and hatred for the same-sex parent.
